SALES PERFORMANCE OVERVIEW

Track revenue, profit, delivery risk, and customer demand trends to evaluate overall sales performance and operational impact across markets and segments.

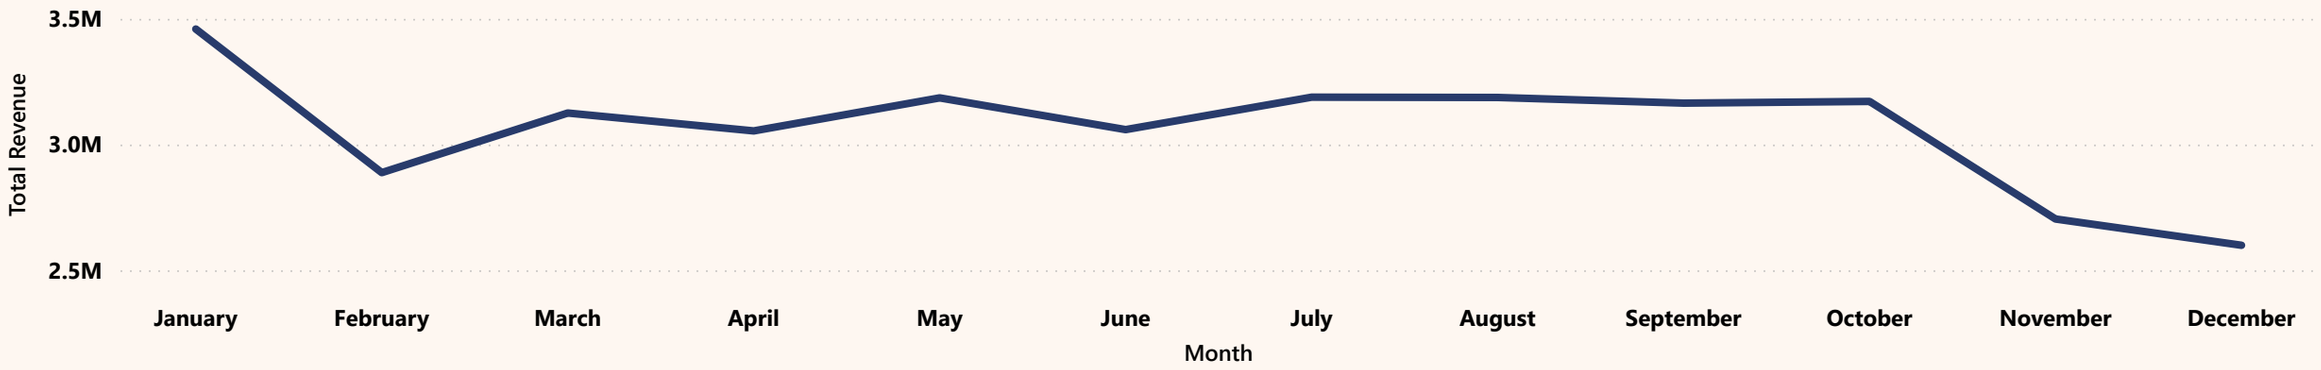

66K	36.78M	3.97M	10.78	54.83	20.13M
TOTAL ORDERS	TOTAL REVENUE	TOTAL PROFIT	PROFIT MARGIN %	LATE DELIVERY RATE %	REVENUE AT RISK

Total Revenue by Month

Revenue remained stable through 2015–2017 before declining sharply in the latest recorded period.

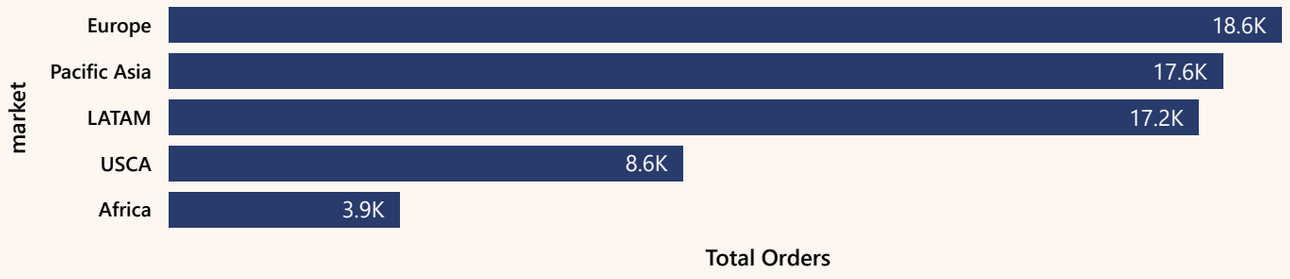

Year: All

2015 | 2016 | 2017 | 2018

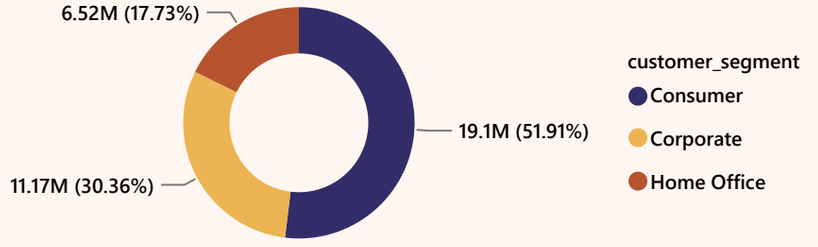

Total Orders by market

Europe, Pacific Asia, and LATAM contribute the highest order volumes.

Total Revenue by customer segment

Consumer segment generates over 50% of total revenue.

SUPPLY CHAIN RISK DASHBOARD

Monitor regional and shipping-mode risk exposure to identify high-risk delivery areas impacting revenue and operational stability.

Caribbean	LATAM	53.08	35.16	LOW RISK	Stable →
North Africa	Africa	54.52	34.05	LOW RISK	Stable →
West Africa	Africa	52.84	29.72	LOW RISK	Stable →
Southern Africa	Africa	53.33	24.52	LOW RISK	Stable →

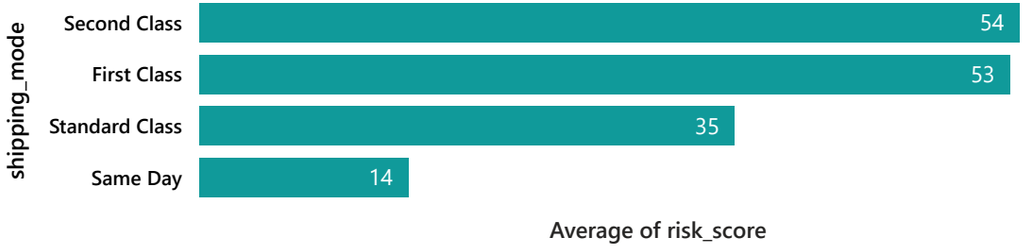

Average of Risk Score by Order Region

Western Europe and Central America currently have the highest risk levels among all regions.

Average of Risk Score by Shipping Mode

Second Class and First Class shipments are facing more operational risk compared to other shipping methods.

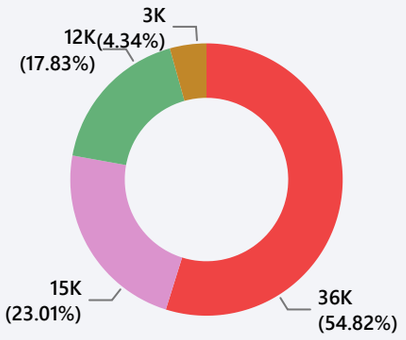

DELIVERY PERFORMANCE DASHBOARD

Track delivery status distribution, compare market-wise delay performance, and monitor monthly late delivery trends to identify operational risk patterns.

Total Orders by Delivery Status

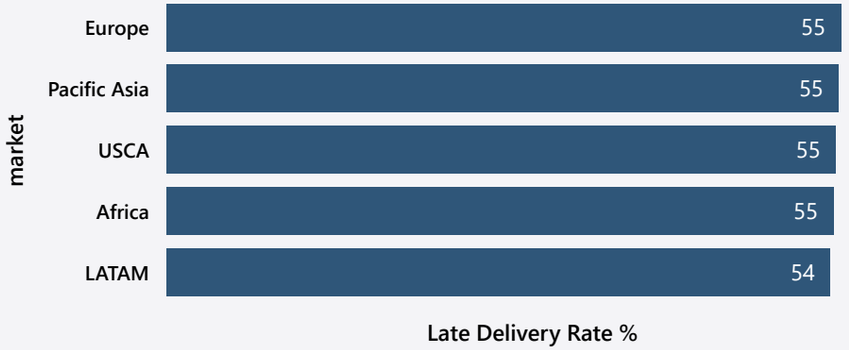

Late deliveries are higher than on-time deliveries.

Delivery Status	Total Orders	Delivery Status %
Late delivery	36048	54.83%
Advance shipping	15127	23.04%
Shipping on time	11722	17.84%
Shipping canceled	2855	4.30%

Late Delivery Rate by Market

Late delivery rates are almost the same across all markets.

Monthly Late Delivery Trend

Late delivery rates stayed consistently high throughout the period.

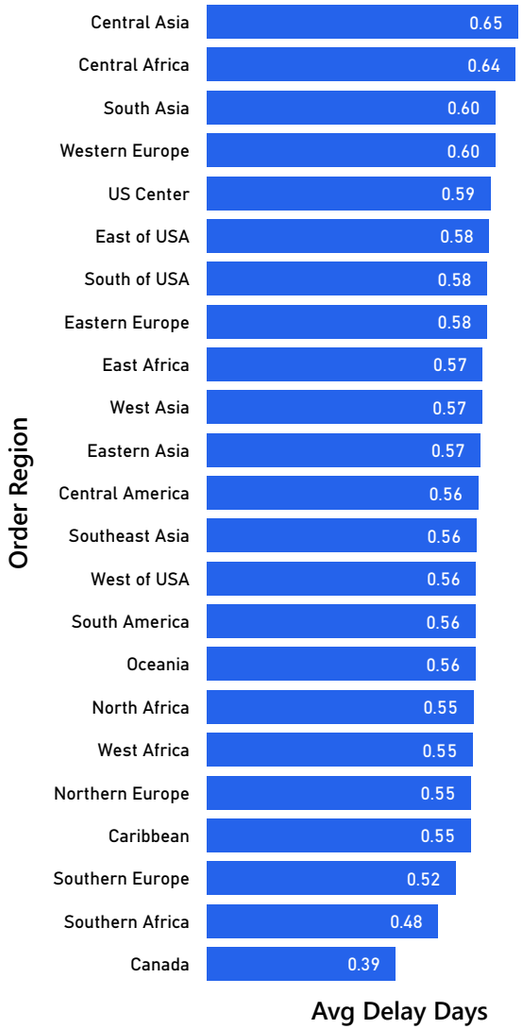

DELIVERY PERFORMANCE DASHBOARD

Monitor delivery delays, compare shipment performance trends, and identify regions driving operational inefficiencies.

Avg Shipping Delay by Region

Central Asia leads in average shipping delay.

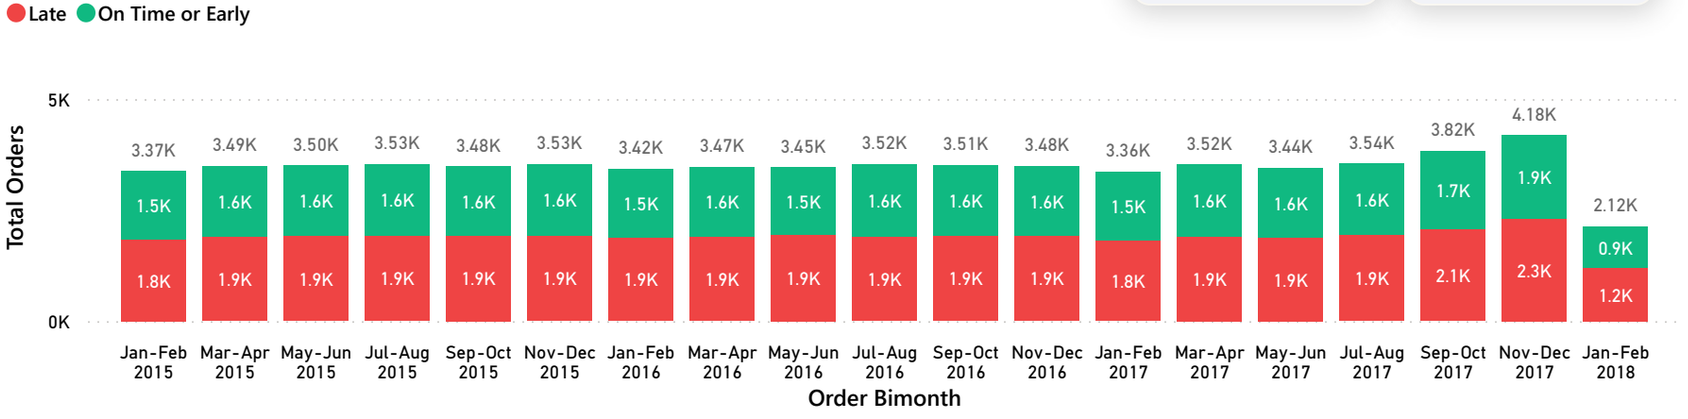

On-Time vs Late Deliveries Over Time

Late deliveries remained consistently high across most periods.

11.72K On Time Orders

36.05K Late Deliverv Orders

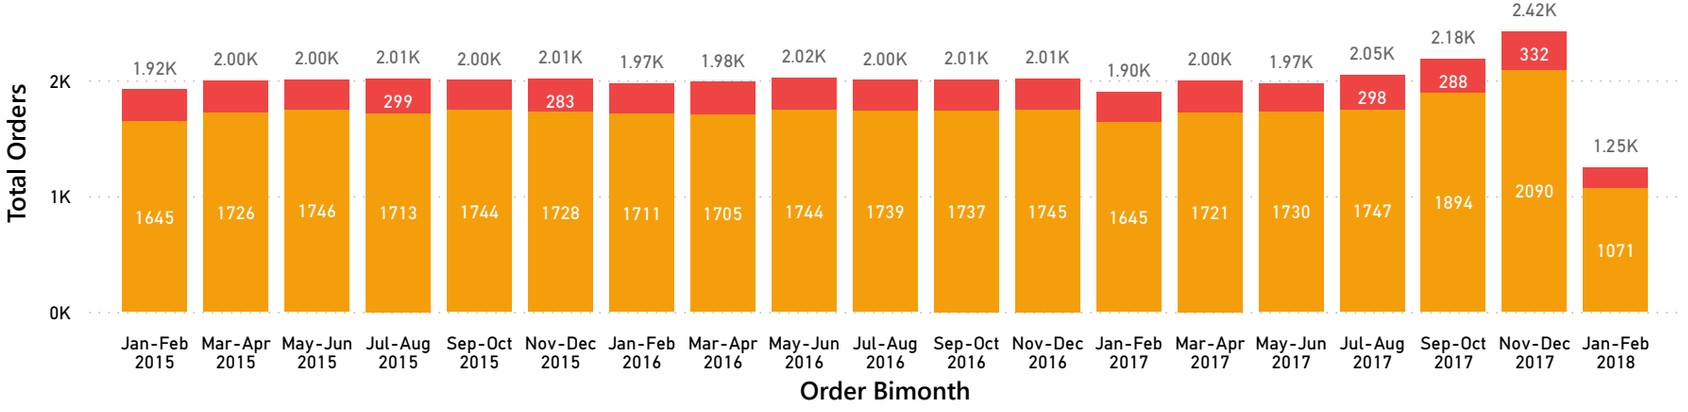

Minor vs Moderate Delivery Delays

Minor delays made up the majority of delayed orders throughout the period.

32.58K Minor Delav

5117 Moderate Delav

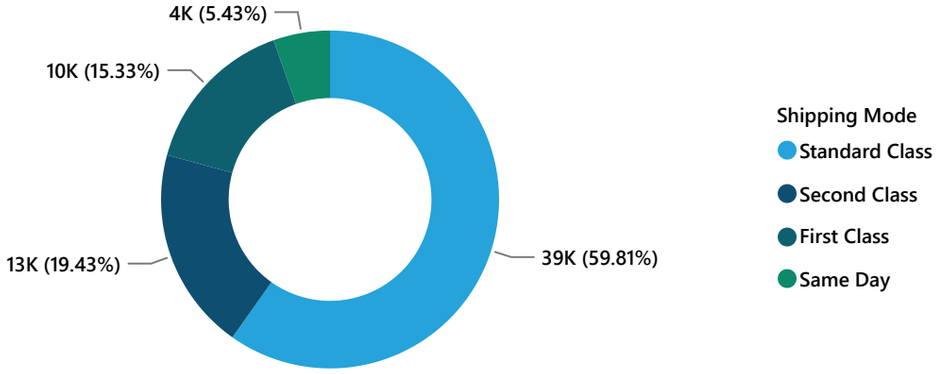

SHIPPING MODE PERFORMANCE OVERVIEW

Analyze shipping performance, identify high-delay delivery modes, and monitor revenue exposure across shipment types.

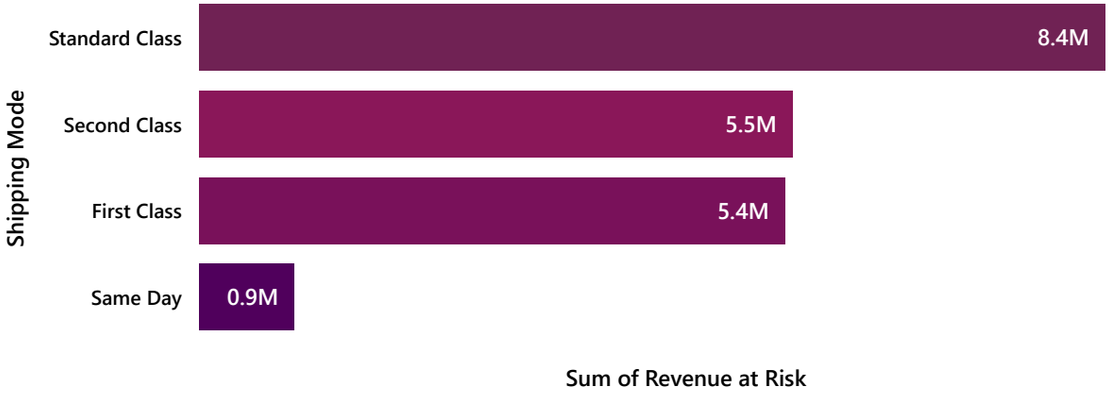

Orders by Shipping Mode

Standard Class accounts for the highest share of total orders.

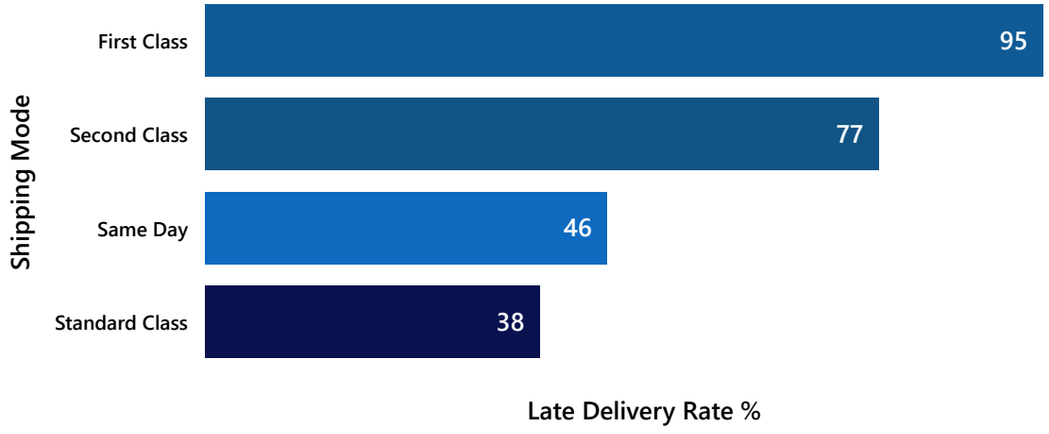

Revenue at Risk by Shipping Mode

Standard Class carries the highest revenue at risk due to order volume.

Late Delivery Rate by Shipping Mode

First Class and Second Class shipments show the highest late delivery rates.

Shipping Mode Risk Summary

First Class and Second Class shipping modes carry higher delivery risk compared to other shipping methods.

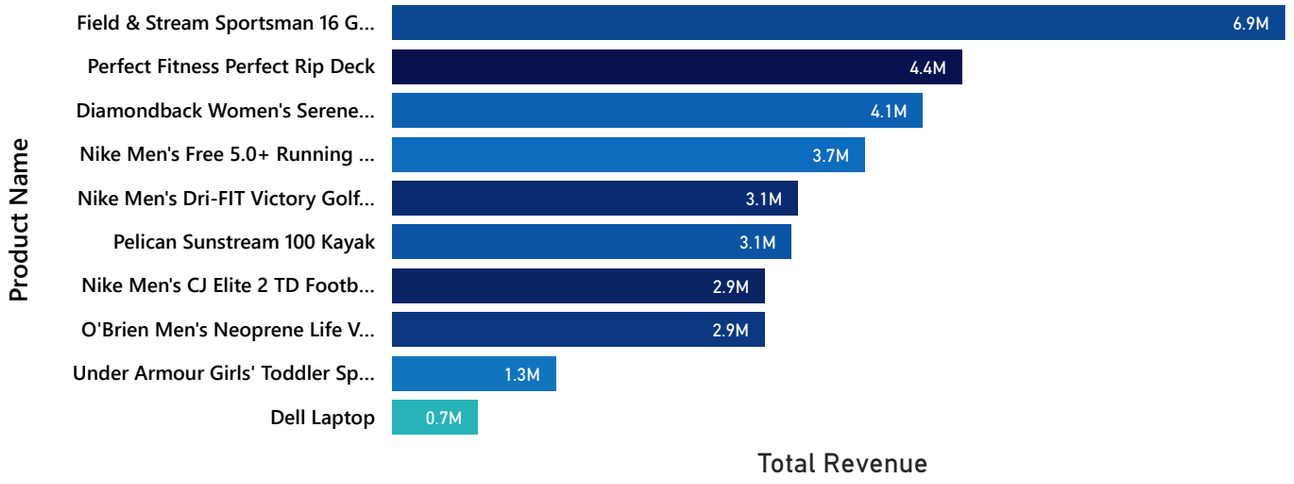

Shipping Mode	Late Rate Pct	Avg Delay Days	Revenue At Risk	Risk Score	Risk Flag
First Class	95.32	1.00	54,08,068.56	53.02	MEDIUM RISK
Same Day	45.74	0.48	8,76,276.89	13.67	LOW RISK
Second Class	76.63	1.99	54,77,446.44	53.63	MEDIUM RISK
Standard Class	38.07	0.00	83,64,603.38	35.00	LOW RISK

PRODUCT PERFORMANCE OVERVIEW

Track top-performing products, identify loss-making items, and monitor overall product risk exposure.

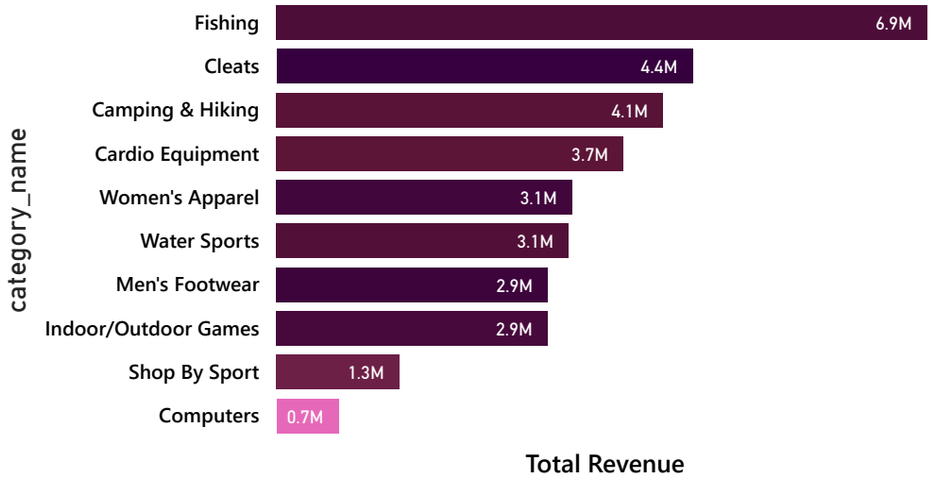

Top 10 Products by Revenue

Sports and fitness products generate the highest product-level revenue.

Top 10 Categories by Revenue

Fishing and Cleats categories contribute the largest share of total revenue.

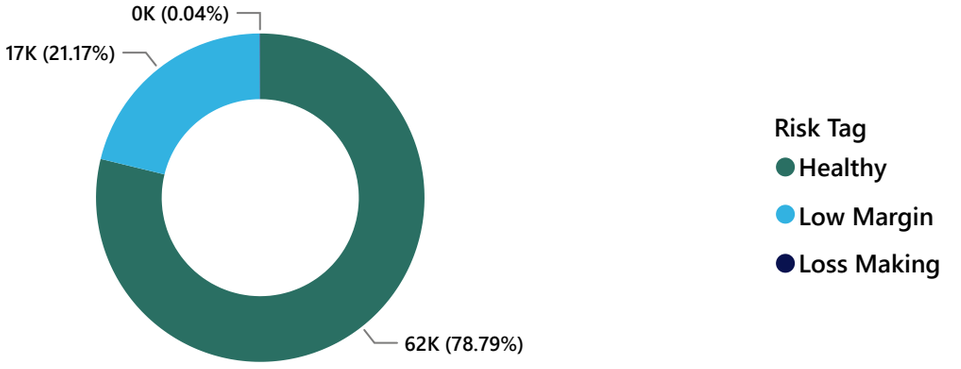

Loss Making Products

Only a small number of products are generating negative profit margins.

Product Name	Total Profit	Profit Margin Pct	Risk Tag
SOLE E25 Elliptical	($169.56)	-1.7	Loss Making
Bushnell Pro X7 Jolt Slope Rangefinder	($255.95)	-3.88	Loss Making
SOLE E35 Elliptical	($965.12)	-3.22	Loss Making

Product Risk Distribution

Only a small share of products fall into low-margin or loss-making categories.

RISK AND PRIORITY OVERVIEW

Monitor high-risk regions and prioritize actions to reduce revenue exposure and operational delays.

Top Risk Drivers Impacting Revenue

Western Europe stands out as the biggest operational risk due to its high late delivery rate and large revenue exposure.

Rank	Priority	Area	Issue	Rvenue At Risk
1	HIGH	Regional Delivery	Western Europe — 55.85% late rate	$3,292.01K
2	MEDIUM	Product Profitability	SOLE E35 Elliptical — -3.22% margin	$0.97K
3	MEDIUM	Product Profitability	Bushnell Pro X7 Jolt Slope Rangefinder — -3.88% margin	$0.26K
4	MEDIUM	Product Profitability	SOLE E25 Elliptical — -1.7% margin	$0.17K
4	Risk Drivers		Total Revenue at Risk	$3,293.40K

Recommended Actions for High-Risk Areas

Western Europe requires immediate attention, while loss-making products need pricing and profitability review.

Rank	Revenue at Risk	Priority Score	Recommended Action	Action Type
1	$3,292.01K	2,69,046.967K	Flag high-value orders in Western Europe for priority routing review	Escalate
2	$0.97K	9.651K	Review discount policy on SOLE E35 Elliptical	Review
3	$0.26K	2.560K	Review discount policy on Bushnell Pro X7 Jolt Slope Rangefinder	Review
4	$0.17K	1.696K	Review discount policy on SOLE E25 Elliptical	Review
4	$3,293.40K	2,69,060.873K		

Average Risk Score by Region

Western Europe and Central America carry the highest regional risk levels.
